OBJECTIVE

Aspiring Software Development Engineer with a strong foundation in Java, object-oriented programming, SQL and full-stack web development. Hands-on experience building and testing real-world applications, with a keen interest in writing clean, well-documented, and reliable code throughout the software development lifecycle.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Web Development: ReactJS, NodeJS, ExpressJS, REST APIs

Databases: MySQL, Microsoft SQL Server, MongoDB

Concepts: OOP, CRUD Operations, Authentication, API Design, SDLC

Tools & Practices: Git, GitHub, VS Code, Jira, Postman, Functional & Regression Testing

Data & Reporting: Power BI, Excel, Tableau, Pandas, NumPy, Matplotlib

PROJECTS

WorkSpace — Collaborative Workspace Management Platform

Dec 2025 – Present

ReactJS, NodeJS, ExpressJS, MongoDB

- Built a full-stack workspace management platform with task and project management features, handling both frontend interfaces and backend APIs.
- Implemented CRUD operations, user authentication, and MongoDB database integration to support core application workflows.
- Designed and developed modules for task tracking and team collaboration, focusing on clean, maintainable code structure.
- Built responsive UI components and integrated them with backend services for seamless data handling.

Blinkit Dashboard — Business Intelligence Dashboard

Jan 2025 – May 2025

Power BI, Excel, Data Analysis

- Developed an interactive dashboard to analyze sales trends, inventory performance, and customer insights using Power BI.
- Performed data cleaning, transformation, and exploratory data analysis to support data-driven reporting.
- Built dynamic, filter-driven visualizations to identify product and category-level business trends.

EXPERIENCE

Automation Testing Intern — GoTechnosys Pvt. Ltd.

Dec 2025 – Jun 2026

- Designed and maintained automated test scripts using Playwright (JavaScript), strengthening practical experience with the software development lifecycle and code quality practices.
- Performed Functional, Smoke, Sanity, and Regression Testing to validate application logic and stability before release.
- Conducted API testing using Postman to validate endpoint behavior, request/response structures, and data integrity.
- Collaborated closely with developers to identify, log, and resolve defects using Jira, gaining exposure to real-world development workflows and documentation practices.

EDUCATION

Vellore Institute of Technology, Bhopal

Jul 2024 – May 2026

Master of Computer Applications (MCA)

Maharshi Dayanand Saraswati University

Jul 2021 – May 2024

Bachelor of Computer Applications (BCA)

CERTIFICATIONS

- Java Programming Fundamentals
- Web Development — Udemy
